

# Election Programme Compromís pel Verger 2015

We are the alternative you want. Here you are our proposals to restart our village.

## DEMOCRATIC REGENERATION

- Establish citizen participation processes such as open assemblies.
- Improve public procurement with a job bank, with no cronyism.
- Create a suggestions box.
- Put a consumer and citizen service office into operation.
- Facilitate electronic management.
- Record plenary sessions and government meetings.
- Reduce contributions for assisting to plenary sessions and increase their regularity.
- Return back the plenary functions, nowadays performed by the government board and the mayoralty.
- Start up “*El Verger obert*”, a transparency portal (government’s activity, municipal groups, expenses, receipts, incomes, suppliers, etc.). We should have quick access to documents, contracts, tenders, etc.
- Write in a participative way the General Plan for Urban Developing.

## ECONOMY

- Encourage cooperative companies.
- Develop an agricultural planning that values our territory:
  - Create a land bank to know which lands are available to be exploited.
  - Elaborate an Agricultural Diversification Plan that indicates which areas of our lands are better to each crop.
  - Increase the offers of urban gardens and create a cooperative to exploit them reasonably.
  - Strengthen the organic farming.

- Transform trash and water services into services provided by the municipality.
- Install renewable energy systems in public buildings.
- Administer the council's money in credit unions and ethical banking.
- Use free software in council's computers.
- Request the state of the accounts and audit the debt, renegotiating it as much as possible.
- Share services with neighbour villages because of efficiency reasons.
- Develop an ecoparc and a composting plant.
- Order courses related to agriculture so that unemployed people could educate.
- Implement a business incubator and collaborative offices.
- Reinforce the local business.
- Get rid of useless goods (official car, towing vehicles and statements).
- Divide the smaller constructions among local companies.
- Face a fresh paradigm to create a new tourism model, getting away from big constructions and FITUR (International Tourism Fair).
- Hire renewable energy power companies for public spaces.
- Handle our mountain and our river conjointly with the neighbour villages like Ondara or Beniarbeig.
- Change the flea market management, giving to it a land market perspective.
- Solve the state of the industrial mark and encourage the establishment of companies.
- Improve the management in remote zones such as *El Boticari*.
- Improve the access to the village as well as its pavements.
- Eliminate taxes when ordering certificates.
- Implement an open WiFi network and an optical fibre installation.

## ENVIRONMENT

- Encourage the use of the bicycle by creating new cycle paths.

- Improve and advertise the hiking routes through Segaria, as well as install new climbing routes.
- Encourage water-saving.
- Build a leisure park in Segària.
- Keep clean the riverbed. Protect the wetland and mountain areas.
- Increase the amount of bins in the village.
- Clean and repair the rural roads.
- Increase the amount of parks and gardens a part from planting trees inside the village.
- Build pet facilities where they could be free and they could relieve themselves without getting dirty our streets.

## SPORTS

- To encourage basic sports for our children with qualified professionals.
- To organise ourselves to take profit of our facilities so that children and adults could be offered a better variety of sport activities.
- Create a skate park.
- Enlarge, if possible, the sports facilities.
- Support municipal sports associations.
- Make easier the sports access to everybody.
- Encourage co-educational sports with no discriminations.
- Promote traditional sports and games.

## SOCIAL SERVICES

- Increase the amount of money dedicated to social affairs and evicted people. We will negotiate with banks in order to stop the evictions. We will give permanent support to those evicted people. Local police will not participate in these processes.
- Promote scholarship dining.
- Facilitate shifts of people studying in the universities of Alicante and Valencia.

- Remain in MASSMA (a grouping of Marina Alta municipalities) and improve its functioning.
- Encourage gender equality policies and include them in every municipal policy.
- Set up leisure spaces for young people with a non-consumerist leisure model.
- Promote a job bank for long-term unemployed.
- Create a Municipal Registry of social rental housing, also for young people.
- Pay attention to the real needs of the elderly.

## CULTURE

- Increase the cultural offer.
- Renew the management of our popular festivities, making them more plural and participative and accepting every leisure and party options.
- Recover the ancient traditions of our village.
- Create a memory with a databank full of audiovisual files and testimonies from our elderly.
- Improve the library service and adequate its use to the real needs of our citizens.
- Manage in a better way our old books and archives to digitalize them.
- Offer Valencian courses to immigrants through volunteer programmes.
- Use properly the cultural centre, promoting expositions, lectures, performances and concerts from our local bands.
- Set up the exhibitions hall (decent and open to any artist). At the moment it has fallen completely into disuse).
- Support our musicians; encourage creating new music bands.
- Strengthen, preserve and put to good use our local heritage. We have many places which could be rehabilitated to use them as showrooms, local files, etc.
- Regarding heritage in general, it should be known and accessible for everybody. It should be created a catalogue of our local heritage and share it with the regional one. This way, it could be worth more.

- Create a true local fair where, a part from what we already know, our agriculture, traditions and music become indispensable.
- Organise language exchanges among people from different nationalities.

## EDUCATION

- Support high-quality, public and free schools with Valencian as the main language.
- Keep and increase the budget item of the public school and fight to preserve the public education as much as possible.
- Create a parents' school with professionals advising them about the education of their children/teenagers.
- Maintain the communication between the primary school, the nursery school and all the members of the educational community (parents and students) in order to listen to proposals and needs.
- Plan educational activities as a join project among the school and the council (school trips to know our traditions and origins, sportive and cultural activities...).
- Promote co-education, inclusion and interculturality as the basis of the education.
- Strengthen and motivate the organisation of approved courses.
